Catarrah Deafness Cannot Be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrah deafness, and that is by a constitutional remedy. Catarrah Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrah, which is an inflamed condition of the mucous surface. Hall's Catarrh Cure acts thru the blood on the mucous surfaces of the system.

It indicates that no matter what action the student body takes, Rugby will not be supplanted.

NORMAL REGENTS FAVOR MEASURE

BOARD MEMBERS ASSERT ONE SCHOOL AT MONMOUTH CAN NOT SUPPLY NEEDS OF ENTIRE STATE.

Salem, Ore., Sep. 22.—The Board of Regents of the Oregon Normal School filed its final draft of a survey made of the Normal School condition to the State Superintendent of Public Instruction on Thursday. That the State of Oregon is sadly in need of an additional Normal School as is provided by the initiative measure creating such a school at Pendleton, is recognized by the Board of Regents in their final report made after an exhaustive survey of the condition of the one present school at Monmouth. They recognize too, in their report, that any new Normal School should be located in a town having public schools large enough to provide ample teacher training practice for the (teacher) students of the Normal.
